POTENCY

Graphs show the amounts relative to products of the same type.

Total Cannabinoids

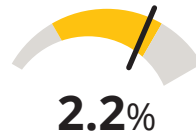

% by weight

Cannabinoids are the main molecules in cannabis that affect a variety of mind and body functions.

Total Terpenes

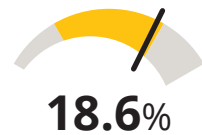

% by weight

Terpenes give cannabis products their distinctive flavor and aroma. They also affect mind and body functions.

Total THC

% by weight

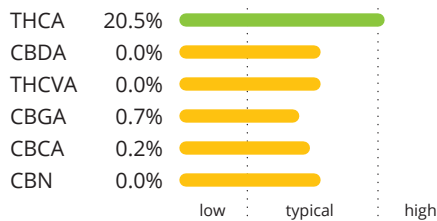

THC is most responsible for the "high" and other therapeutic effects. Its potency is only one factor in overall experience.
